

ACEP Leadership and Advocacy Conference (LAC)

May 1-3, 2022

Washington, DC

Register Today for the 2022 Leadership and Advocacy Conference!

The pandemic experience continues to reshape emergency medicine, and ACEP members know the challenges that emergency physicians and patients face better than anyone. Now is the time to speak out to empower emergency physicians at work.

This year, the [Leadership and Advocacy Conference](#) (LAC) will focus on protecting individual emergency physicians on the job. Congress has an opportunity to strengthen laws that directly impact your financial security and legal rights, personal safety and more-but they need to hear from you.

DC is open again! A growing number of Congressional offices are scheduling in-person meetings with a few exceptions.

Congressional meetings will only be available for those attending LAC22 in person. [Click here](#) to learn how Congressional visits will work. Those choosing to attend virtually can access the presentations and educational portions of the conference via livestream but will not be able to meet with Congress.

Join us in the nation's capital:

- Be heard on the issues that matter most
- Meet with elected officials and staff
- Hone your skills as an advocate for emergency physicians
- Connect with policymakers and peers

We hope you can join us for the premier advocacy event for emergency physicians. Space is filling fast, [register today!](#)

CME Credit Statement

The American College of Emergency Physicians is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
